

Poplar Academy is an institution that prides itself in its rich and diverse variety of extra mural activities. These activities are vital factors in the development of healthy and balanced young people. All learners are encouraged to participate in these activities. Each term, a full extra mural programme is sent home.

These are activities are not part of the official school offering and is for the parents personal accounts. The purpose of having these at school is for the logistical convenience of Poplar's parents who would have engaged with these in any case. These activities are not obligatory.
